# BRENART EYE CLINIC

## COMPREHENSIVE EYE EXAMS

Regular eye exams are essential to promptly detecting conditions like glaucoma, macular degeneration, cataracts, and diabetic retinopathy. Early detection of these conditions allows for the widest range of treatment options and the best chance of slowing or reversing any symptoms. [LEARN MORE](#)

## CONTACT LENSE EXAMS

Contact lens exams include tests that are not always performed in regular eye exams, so be sure to let us know when scheduling your exam if you are considering contact lenses. That allows us to schedule the extra time required for contact lens fitting or prescription updates.

[LEARN MORE](#)

## EMERGENCY SERVICES

If you have a foreign object in your eye, are seeing flashes and floaters, or have another urgent medical problem related to your eyes, you can count on Brenart Eye Clinic's 24/7 emergency services. [LEARN MORE](#)

## VISION THERAPY

Vision therapy is a personalized program of exercises to train your eyes to move, partner, and focus better and to train your brain to better process visual information. Optometric vision therapy is used to treat amblyopia (lazy eye), and it also can help improve control of strabismus (eye turn). At Brenart, we also offer neuro-vision rehabilitation, a form of vision therapy for patients with visual symptoms following a brain injury. [LEARN MORE](#)
